

As a resident of the KLOVE listening area, this radio station has a great impact on my life. It is wonderful to be able to be at home, work or in my car and know that I can listen to the wonderful music KLOVE provides. If KLOVE was taken off the air, it would be a great tragedy to our area. So many people here and in surrounding areas have KLOVE as something that can help make their days better, and provides tremendous encouragement. It is a station that gives listeners something good to listen to throughout the day, and allows them to avoid having to listen to all the other stations that play the same old songs all day long. KLOVE is in the BEST interest for the public because it is a station that has freindly voices when you listen everyday. It has the ability to change a persons life, through spreading the truth of Jesus Christ throughout the coverage area. This is a wonderful radio station and it needs to stay on air as long as God allows!!
